

		VP-2X 160-12D	VP-2X 250-12D
Capacity (mm)	min	40x4	50x5
	max	160x16	250x25
Drilling power (S6-60%)		16 kW (Option: 20 kW)	
Drilling speed (RPM)		160-4000	
2 independent spindles with 500 mm stroke each and tool changer 6 diameters, CNC controlled of clamps position		✓	
Shearing power		230 T	600 T
V-scoring fast scribing for part identification and layout marking		✓	
Disc marking unit 40 characters		Option	
80 T barrel marking unit 8 positions (up to 15 characters/pos.)		Option	
Notching by milling on both flanges		✓	
Heel milling		✓	
Feeding system		CNC high speed carriage with hydraulic gripper	
Storage chains and rotating arms		Option	
Outfeed conveyor with unloading arms		✓	✓
Removable element for short part unloading		Option	Option
Full-automatic loading, gripping and unloading operations		Option	
Multi-zone automatic part sorting		Option	Option
PRONC23D user-friendly programming software with 3D part display		✓
