

Efficient
industrial
storage
system

MATERIALS TO STORE

It allows us to store flat products of all kinds such as sheet steel, stainless, aluminium, etc. and cut pieces in very little space, as well as a combination of both.

Materials to store: Format steel plates, special formats, finished cut plates.

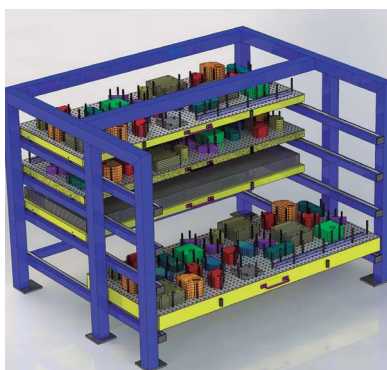

Options: Upper warehouse, motorization by levels, combination of format sheets and finished pieces.

Combination extraction shelves in low levels, fixed trays in upper levels.

Advantages

1. Reduces space requirements
2. Reduces time on handling
3. Contributes to the organization of the warehouse
4. Improves the safety of your workplace
5. Ergonomic system, with the bar for extraction, you always work with the tray at optimal working height

Storage of all
types of flat
product

Storage of metal plates (CH system)

| RACK OF FIXED SIDES
